The Master Plan proposes expanding the sanctuary by 557 square feet (SF), adding 246 SF to the Fellowship/Classroom Building, adding a detached restroom building and expanding the parking area to accommodate 22 additional vehicles. The expansion is proposed to be completed in four (4) phases.

Staff Presentation/Commissioners Questions:

Chip Rerig presented the staff report and answered Commissioners' questions.

Applicant:

Darryl Hawkins said that the that the additional parking spaces are needed because the church has grown and current parking standards do not address how much parking is needed for today's church uses. He said that the preschool is no longer at the facility. He said they are complying with Building Codes, the new restrooms will be ADA compliant, and by changing to waterless urinals, that they will be able come up with enough water savings for revision of the project.

Public Comments:

Scott Smitherman asked Mr. Hawkins for information on the water savings firm that was mentioned. Mr. Hawkins said that he will furnish him with the information.

Commissioner Comments:

Commissioner Stocker moved to approve the phased Master Plan as submitted. Commissioner Widmar seconded the motion. Commissioner Davis said that staff covered all the issues in the staff report and that it is an appropriate project for this location. Commissioner Bryant said she was pleased the church found a creative way to utilize their parking problem by having more than one service each Sunday.

Applicant:

Jorge Duarte said that the office building will be a nice building for his dental practice that will improve the area and that Monterey will be pleased with the result.

Public Comments:

None.

Commissioner Comments:

Commissioner Davis moved to approve the mixed-use development because it is a creative use of existing commercially zoned property, it preserves a residence on a corner lot, and provides a unique work environment—all of which the City is looking forward to seeing more of. Commissioner McCrone seconded the motion and said that this project is the exact type of project the City likes to see in this area of the city. Commissioner Bryant said that this project follows City policy of single-family homes and mixed use in this neighborhood.

MOTION:

On a motion by Commissioner Davis, seconded by Commissioner McCrone, it was moved to approve, as submitted, Use Permit to allow mixed-use development. The motion passed by the following vote:

AYES:	6	COMMISSIONERS:	Bryant, Davis, Garden, McCrone, Stocker, Widmar

**3. 2170 N. Fremont Street (Longs Drugs); Major Use Permit 06-213; Applicant Laile Giansetto, AIA, for PSM Architects, Inc.; Owner Longs Drug Stores, Inc., C-2 Zoning District; Exempt from CEQA Requirements.**

Request Use Permit to allow the addition of a drive-through window for the pharmacy. The proposed drive-through window is located on the Airport Road (east) side of the building. The parking lot will be reconfigured for the drive-through access lane. Eight (8) parking spaces will be removed. The total number of parking spaces provided on the property will be 147, which substantially exceeds the minimum standard for this retail building. The minimum standard by building area is 52 parking spaces.

**ACTION: Approved as submitted Use Permit for a pharmacy drive-through window. 6-0-1 (Absent-Osorio).**

Staff Presentation/Commissioners Questions:

Chip Rerig presented the staff report and answered Commissioners' questions.

Applicant:

Laile Giansetto, Architect, said that most Longs locations are adding a drive-through pharmacy window to better serve their clients. She said that they would like the option of utilizing the hours that the store is opened and that they have no problem with adding a screen wall and landscaping to buffer potential noise impacts. She answered Commissioners' questions saying that the conversation between driver and employee at the window is at a low volume; that there was discussion of increasing landscaping in the parking lot, but that she is not sure they would want to lose any more parking spaces; and, that she will take back to Longs the suggestion of repairing the sidewalk on Airport Road as part of the project.

Public Comments:

Scott Smitherman asked if they were going to close the northeast entrance? Ms. Giansetto said that entrance will be closed off and interior changes will be made, but that the exterior of the building, where the canopy is located, will not change.

Commissioner Comments:

Commissioner Bryant moved to approve the project as submitted. She said she too would not like to see any more parking spaces diminished because there are certain times of the year when the parking lot is full. Commissioner Widmar seconded the motion. Commissioner Davis said that the elimination of the one entrance will help in terms of noise in the neighborhood because it will force parking onto the Fremont side of the lot. Commissioner McCrone said that he will support the motion, but he is concerned about the amplified voices and he is wary that that does not cause any noise back into the neighborhood. Chair Garden said that this is one more case where parking standards have been exceeded and if the parking lot were built today, it could be designed to enhance the neighborhood with 95 less parking spaces and increased landscaping.

MOTION:

On a motion by Commissioner Bryant, seconded by Commissioner Widmar, it was moved to approve, as submitted, Use Permit for a pharmacy drive-through window. The motion passed by the following vote:

AYES:	6	COMMISSIONERS:	Bryant, Davis, Garden, McCrone, Stocker, Widmar
NOES:	0	COMMISSIONERS:	None
ABSENT:	1	COMMISSIONERS:	Osorio
