RELEASE: Immediate

CONSTRUCTION TO IMPACT TRAFFIC ON SOLEDAD DRIVE

Starting Monday, September 14, 2009, traffic delays and limited detours are anticipated during construction of street improvements on Soledad Drive between Munras Avenue and Monte Vista Drive. Controlled two-way traffic will be maintained during construction. At different times during the paving operation, the intersections may be temporarily closed and traffic will be detoured accordingly.

This project also includes sewer repairs on the northwesterly corner of Munras Avenue and Soledad Drive which will close the dedicated right turn lane on Soledad Drive into Munras Avenue.

All work will be completed by December 18, 2009. Pavex Construction will be performing the work.

We appreciate your cooperation and patience during the construction of this important project. For updated information and project scheduling, please visit the Construction Updates page on the City of Monterey's website at: www.monterey.org/projects. Should you have any questions, please call the City of Monterey Capital Projects Office at (831) 646-3997.
