On March 3, Monterey voters will decide the outcome of Measure G, the proposed half-cent per dollar general sales tax measure to preserve city services. Our City Council unanimously put the tax measure on to the ballot after declaring a fiscal emergency in November. Over the past several weeks, City staff have been asked many questions about the City Council’s rationale behind placing this measure on the ballot. Here are some of the facts which led our Council to make this decision.

First and foremost, our financial forecast for the next three years shows increasing budget deficits of $2.8 million, $3.8 million and $5.2 million, respectively. The City Council was presented with the option to consider reducing service levels across all City Departments in order to balance our City checkbook. Likewise, the Council had the option to increase revenues by considering raising sales tax, hotel tax, or both.

The Council considered a variety of approaches to solving the fiscal emergency. For example, the Council considered directing staff to propose $2.8 million of budget reductions to City services and programs, effective July 1, 2020. However, in making the decision to propose a general sales tax measure, the Council determined that a half-cent per dollar sales tax measure would generate about $5 million annually, and noted the fact that 62% of sales tax in Monterey is paid by visitors and non-residents. Council also considered that sale tax is exempt for grocery and prescription drugs. Additionally, Council put a nine (9) year sunset on the measure.

continued
Message from the City Manager, continued

Last but not least, Council directed staff to continue working to find ways of maintaining services through retooling our various operations and addressing the structural deficit. This approach, which we call the “hybrid approach,” translates to combining the sales tax measure revenues (increase revenues) with the obligation to not start new services and programs, review our core operations, labor costs and service delivery methods to generate additional significant cost savings (reduce expenditures).

Staff conducted many, many outreach meetings with the community. We will continue to inform you about the facts of the proposed ballot measure. Please take the time to read up on Measure G -- “Preserving City Services Measure.” We have posted many facts on our website at www.monterey.org/MeasureG.

As always, City staff remains available to answer any questions you may have.

Monterey 250 is here!
Fun for the whole family mini-golf, Feb. 6 - 9

Celebrate Monterey’s 250th birthday with us! Next on the schedule of events is a family fun min-golf pop-up at the Monterey Conference Center during the AT&T Pebble Beach Pro-Am Golf Tournament, Thursday, February 6 through Sunday, February 9 from 10:00 a.m. to 6:00 p.m.

Golf fans can watch the AT&T Tournament live on big screens while they practice their putting on the mini-golf course. Holes are creatively designed by local companies and agencies. Kids of all ages are encouraged to come down and play. The event will help us raise money for the big birthday celebration coming this summer.

Read more about Monterey 250 on page 16, and check monterey250.org

LIST OF MONTEREY 250 SIGNATURE EVENTS
Many other events are also being planned so stay tuned!
We appreciate all the sponsor support!
FLYER IN PDF

Monterey 250 swag is available for purchase online and in-person - t-shirts, hats, and now posters by local artist, Kirby Scudder.
We hope you made it to the first “Monterey Mornings with the Manager” on Thursday, January 23, but if you missed it, there’s another opportunity on Thursday, February 27, from 9:00 to 10:00 a.m. and each fourth Thursday of the month for 2020. Meet neighbors, the City Manager, and special guests for important City updates.

If you can’t be there, watch live at facebook.com/cityofmonterey. We also have a SoundCloud account that lists past events for viewing at any time at soundcloud.com/cityofmonterey. Tell your friends!

What else is new for 2020?! In an effort to reach a captivating community audience curious and interested in participating in their local government priorities and decisions, the City Manager’s Office will begin introducing topics straight from the City Council Agenda packet regarding key initiatives planned for the Council to learn about or tackle at the next meeting.

The Monterey City Council meets on the first and third Tuesdays of each month at 4:00 and 7:00 p.m. in the Council Chamber. Meetings are broadcast live on the Monterey Channel at monterey.org/tv, streamed on the web, and Tweeted via Twitter.com/cityofmonterey.

Watch live via Facebook Live at facebook.com/cityofmonterey, or anytime at soundcloud.com/cityofmonterey. Tell your friends, and let us know what you think of this new outreach method!
The City of Monterey congratulates and introduces Karen Larson as our new Parks and Recreation Director, appointed to the position in December 2019. Karen has been with the City for over 30 years. She started her career in 1986 as a part-time, seasonal employee as a Recreation Leader, working her way up as a Community Center Director (today’s Recreation Coordinator position) at the Monterey Youth Center from 1993 to 1997.

Next, she was promoted to Facility Coordinator and then Operations Manager at the Monterey Sports Center between 1997 and 2012. From there, the Plans and Public Works Department needed her expertise and she worked for seven years in this largest city operational department. Karen’s job included many critical functions including budgeting, personnel management, project management, enterprise-wide software implementation, as well as cost analysis and cost management.

While she really enjoyed her time in Public Works, she took the opportunity when it opened to move back to Recreation to work in the newly formed Parks and Recreation Department. She took on the role of Interim Parks & Recreation Director in July 2019. It was a perfect fit, since she did have experience in both Parks and Recreation sides of the house - she knows all that goes into being successful in both Recreation and at the Sports Center, and she knows Parks, Urban Forestry, and Cemetery Operations. Her tenure with the City provides an important foundation for her leadership abilities and camaraderie with her staff.

Karen is a perfect example of growth and advancement within the organization. Since she started with the City in 1986, she has worked hard, advanced her education (Karen holds a Master of Public Administration from Golden Gate University) and contributed to the organization, and earned a well-deserved a spot as a member of the executive team. She has a lot of energy and ideas she’s excited to bring to the position. She is often out in the community and many of you may already know her, but if you don’t, please say hello and introduce yourself!

Summer Job Opportunities with Monterey Recreation

BY INTERIM RECREATION AND COMMUNITY SERVICES MANAGER SHANON LEON

Monterey Recreation is currently recruiting staff for our Summer 2020 camps and playground programs. We are looking for people who enjoy being outdoors, around lots of children and can be flexible and adaptable in a variety of situations.

Benefits include income, work outdoors, development of leadership skills and being a positive role model for children. Positions available include Playground Recreation Leader, Day Camp Counselor, Camp Quien Sabe Resident Camp (Counselor, Kitchen Helper, Crafts Leader, Handyperson and Cook).

The application deadline is Friday, March 13, 2020 by 5:00 p.m. Apply at the Monterey Recreation Office, 546 Dutra Street, Monterey, (831) 646-3866. Get details on the Summer Jobs page at monterey.org/rec
At the Jan 21 Council meeting a nearly $6 million construction project for the Citywide Road Surface Repair Project, Phase 2 was awarded.

Weather conditions are critical for the road projects. That’s why most of the road work is done in spring and summer months. Watch for a schedule for this work that will start in the spring. A list of streets is available now at monterey.org/fixingstreets or directly at this link.

Shown below is a state of streets information sheet, and the latest Pavement Condition Index Report that we now publish quarterly. (Click the images to view larger)
North Fremont Bike and Pedestrian Improvement Project - what we have now and what's the vision

We created a new infographic to outline this major project and to show all the significant updates this project provided, as well as the vision for the future for regional transportation and how this project fits into that outlook.

Please take a look and let us know if you have any questions or comments. If you want print copies let us know.

PAGE 2 - What's the Vision

North Fremont Bike and Pedestrian Improvement Project and Waterfront Parking Lot Improvement Project earn awards

Congratulations to the Public Works Department for winning three recent awards!

Two awards were received for the North Fremont Bike and Pedestrian Access and Safety Improvements Project. The American Council of Engineering Companies (ACEC) awarded an Honor Award for the 2020 Engineering Excellence Award for the California region. The project also received the Project of the Year Award (for projects between $5-25M) from the Monterey Bay chapter of the American Public Works Association (APWA).

The Waterfront Parking Lot Improvement Project won an APWA 2020 Project of the Year Award of Merit recognition for projects under $5 million. This project had a ribbon-cutting even in June 2019.
Monterey Model wins Army Partnership Award

An intergovernmental support agreement (IGSA) between the cities of Monterey and Seaside’s Presidio Municipal Service Agency (PMSA) and Presidio of Monterey (POM) has earned a 2019 Army Community Partnership Award from the Department of the Army.

Known as the Monterey Model, the public-public partnership has been a nationwide benchmark for other communities with defense installations since its start in 1998.

“The Monterey Model continues to be a cutting-edge collaboration that saves dollars, advances military mission, and provides numerous economic and cultural benefits to the entire Monterey community,” said City Manager Hans Uslar. “We are honored to be recognized by the Department of the Army for this important partnership.”

The Community Partnership Awards recognize exceptional community partnerships that have improved readiness, driven modernization, and contributed to reform initiatives throughout the Army. Army awardees include commands, installations and state National Guards. Winners were recognized at a ceremony on December 5, 2019, in the Hall of Heroes at the Pentagon.

The IGSA provides installation support services to operate, maintain, inspect and repair facilities at POM, Ord Military Community, and U.S. Army Signal Activity at Camp Roberts, California. The IGSA has reduced both partners’ operational costs through economies of scale, and modernized and enhanced the services provided to the Army.

Learn more about the IGSA and the Monterey Model at montereymodel.org
The City has been awarded over $12 million in grant funding over the past five years to implement transportation engineering projects and programs. These efforts involve the collaboration and effort of many City departments, especially Planning and Finance.

City staff works closely with the Transportation Agency for Monterey County (TAMC) and Caltrans to identify and apply for grant funding to plan, design, and construct transportation projects as well as programs to enhance the City transportation network, plan for future projects and implement education programs.

While doing those new year clean-up projects around your home and business, remember to check your gutters and drains, and watch the weather! Throughout the year, roof gutters, downspouts, trench drains, curb drains, and sidewalk gutters can get clogged with excessive debris like fallen leaves, branches, and windblown trash that may enter storm flows and cause unnecessary water pollution and flooding. Checking these drainage features and clearing debris will help prepare your property for winter rains and help prevent localized flooding.

Also, watch the weather and do quick rechecks prior to a storm. Debris such as leaves and branches should be placed in the yard waste bin and trash in the trash bin, and always remember to securely close bin lids. Each of these steps helps protect your property, and helps the community better protect our local marine environments!

Check out the associated brochure produced by Stormwater Education Alliance (SEA), montereysea.org.
Do you ever wonder: where can I learn more about...the high tide today; or weather tomorrow; or size of that earthquake I felt this morning; height of the river after last night’s storm; drought conditions in the West; future predictions for coastal sea level rise??

Well, there are tools for that! Online public tools exist to answer all of these earthly questions and more. Several federal and State agencies provide public portals to scientific data collected, analyzed, and made readily available to the world online. These data sets are often referred to and used by local agencies, universities/schools, consultants, and the public, alike!

Typically, the data provided undergo standardized quality assurance and quality control (QA/QC) reviews to ensure their efficacy. Often, portals that display nearly real-time or raw data for timely public use are considered preliminary information until further technical review.

For greater understanding of your environment, weather, and climate, there’s a world of information at our fingertips, so consider starting your own earthly exploration now!

With a new decade should come a review of the last. The following is a sampling of environmentally significant events:

- The last decade was the hottest ever recorded.
- **2012:** Lowest levels of Arctic sea ice were recorded. We’re on track to experience our first ice-free summer.
- **2014 - 2017:** The “longest, most widespread, and possibly the most damaging coral bleaching event on record” (NOAA).
- **2016:** City of Monterey adopted Climate Action Plan representing our local effort in addressing a global problem with community-level impacts.
- **2016:** Paris Agreement entered into force with the goal of uniting nations to undertake ambitious efforts combating climate change.
- **2017:** United States withdrew from the Paris Agreement.
- **2018:** California’s largest wildfire – Mendocino Complex.
  - While many fires are caused by people, climate change makes us more vulnerable. There’s less snow accumulating and it’s melting earlier, extending the dry season.
- **As of July 2018:** 127 countries had a policy regulating plastic bags. 27 have also implemented some sort of ban on other single-use plastics.
  - Kenya: Strictest policy with a four-year jail sentence or fines up to $40,000 for using plastic bags.
- **2018:** Monterey Bay Community Power launched.
  - Carbon-free electricity provided to 278,000 customers through MBchoice.
  - Estimated 300,000 metric tons of GHG reduced through carbon-free electricity.
- **2018:** The City of Monterey prevented 53 metric tons of carbon dioxide equivalent (CO2E) per month by ramping up food waste recycling efforts – roughly equal to taking 137 cars off the road.
- **2019:** The first mammal went extinct due to climate change. The Bramble Cay melomys, or the mosaic-tailed rat, from an island near the Great Barrier Reef.
- **Now:** People care more about climate change. According to a Yale report tracking key indicators since 2008, “the proportion of Americans who are very worried about global warming has more than tripled since its lowest point in 2011.”

― Rachel Carson
Preparing for planned power outages

BY COMMUNICATIONS ANALYST LAURIE HUELGA

Power outages can happen for many reasons, and being prepared is an important part of your emergency plan. In order to keep communities safe, PG&E may need to shut off power to their distribution and transmission lines to prevent their equipment from starting wildfires during extreme weather or wildfire conditions. This is called a Public Safety Power Shutoff (PSPS).

The City of Monterey and surrounding communities could be subjected to a PSPS even if we are not at risk for a wildfire, a result of PG&E shutting down electrical lines that are in a wildland fire risk area that may be the feed for our power. When the City receives notification about potential power outages or related impacts affecting our area, information will be posted on the monterey.org home and Emergency Resources main pages.

We also have a new web page available at monterey.org/pspss that outlines the resources the City is preparing for residents, and what you can do to prepare for power shutoffs. There are also links to additional resources.

Join the City of Monterey and get prepared.

February 2020 CERT Newsletter

Featured in this edition:

- The Mission Of CERT (Community Emergency Response Team)
- Training Supplement: Coastal Incident Response
- The C.A.T. Combat Application Tourniquet, now the FEMA/CERT standard for tourniquets

Learn more about how to get involved. Read the February edition in PDF at:
As we enter our winter season here in Monterey, it is more important than ever to practice safe driving techniques so that everyone can have a safe enjoyable start to the new year. During storms in Monterey, we see lots of down trees and wires and areas of flooding. Make sure to keep your eyes up and off your electronics.

Here are some tips for driving in bad weather:

- **Plan ahead.** Relieve your stress of having to hurry or being late and give yourself extra time to get where you are going.
- **Slow Down.** Give yourself more time and space between vehicles to decrease the chance of skids and accidents.
- **Check Equipment.** Make sure you vehicle lights and wipers work.

Even if everyone follows the above tips unfortunately, accidents do happen so please always make sure to BUCKLE UP!

The Monterey Storm Center web page will be activated with current conditions during active storms - monterey.org/Residents/Emergency-Resources/Monterey-Storm-Center

Nearly 40 percent of child gun deaths are suicides — almost 600 child gun suicides each year. Gun deaths are the second-leading cause of death among those under 16 years of age.

**Moms Demand Action for Gun Sense in America** has developed the SMART framework to help parents and adults prevent child gun deaths and injuries.

The Monterey City Council recently adopted a resolution in support of the Be Smart Educations Campaign on Responsible Firearm Storage.

First time Home Buyer Program applications for waitlist
BY HOUSING ANALYST GRANT LEONARD

The City’s Affordable First-Time Home Buyer Program is designed to provide low income and workforce housing to individuals and families who otherwise would not be able to afford to purchase a home in Monterey.

The program involves the re-sale of homes and condominiums that are priced below comparable market-rate houses and condominiums. The properties are deed restricted and the City monitors the deed restriction to ensure they stay affordable. In order to qualify to purchase a home, applicants must live or work in Monterey, be a first time home buyer, and income qualify.

Because the Affordable Ownership homes are priced less than market-rate homes, they are available only to households that earn less than a certain income. The amount of income a household can earn and still be eligible depends on the number of people in the household. The chart below shows the current maximum annual income according to household size for low, median, and moderate-income households.

<table>
<thead>
<tr>
<th>Household Size:</th>

<td>$80,000</td>
<td>$88,900</td>
<td>$96,000</td>
</tr>
</tbody>
</table>

The availability of homes through this program is limited and varies depending upon how often affordable homes become available for resale. Currently, the City is anticipating having multiple properties available in 2020. When a property is available for resale, the City will advertise the home to individuals on the First-Time Home Buyers waiting list, allowing them the first opportunity to purchase the affordable homes.

For more information, including how to apply, contact the Housing Programs Office at 831-646-3995, or visit the City’s grant program website at https://monterey.org/housing

NOTE: The Housing Programs Office has a new location - lower level of Colton Hall, 580 Pacific Street. Formerly the Museums & Cultural Arts Office, now next door at 526 Pierce St.

New Ca Building Codes

The new year brought changes to California Building Codes. The Building & Safety Office (formerly the Permit Inspection Services) at 580 Pacific Street, Room 4 at City Hall, has the undated information.

For details visit dgs.ca.gov/BSC/Codes
Monterey drivers now have the option to pay for parking from their mobile devices. The ParkMobile app is available at approximately 1,200 spaces in most Cannery Row, Downtown, and Waterfront parking lots. A map showing all the lots connected to ParkMobile is available at monterey.org/Portals/o/Maps/Lots-with-ParkMobile.pdf.

New stickers and signage provide information to drivers on how to pay for parking using the app. ParkMobile is available free for both iPhone and Android devices, and users can also register at ParkMobile.io.

*Find information, sign-up and use instructions at monterey.org/Services/Parking/parkmobile*
The fiscal year results are in and it was a home run! The Monterey Conference Center’s first year of operation was an outstanding success.

Here’s a ‘snapshot’ for 2018/19 is just a sample of the success to come in 2019/20 and beyond. monterey.org/Portals/0/News/MCC-Snapshot-FY1819-FINAL.pdf

Thank you for connecting with us on social media!

Engaging with the community through the web and social media channels is very important to us. We appreciate residents and visitors connecting with us in all the fun and important ways to bring the community together.

New in 2019, we started on LinkedIn, the most popular recruiting social network to post job openings. Nearly 1,000 people watched our YouTube videos every day. Instagram continues to be our most popular social network with nearly 4 million post views and 20 new followers a day. Twitter continues to be the best place to post breaking news and live tweets during City Council meetings have been very successful.

We look forward to making more connections and interacting with you in 2020!

(Click the info graphics to learn more, or visit our social media web page.)
Monterey 250 gift of art to the community

Mark your calendar for Tuesday, June 2 for the PUBLIC ART UNVEILING - A 15-foot abalone sculpture to commemorate Monterey’s 250th year historic milestone, unveiled at San Carlos Beach Park. Designed and created by Cara Byrd and John Mason.

This is a Monterey 250 gift of art to the community.

Thank you to our major sponsor for this project, the Cannery Row Company.

The significance of June 3 as Monterey’s birthday

In 1602, Spanish explorer Sebastian Vizcaino set foot in Monterey Bay and he named the area in honor of the Viceroy of New Spain who ordered his expedition. Under a large oak tree (near the intersection of Pacific and Artillery Streets today), his crew celebrated mass in thanks for getting there safely.

168 years later, on June 3, 1770, Captain Gaspar de Portola and Father Junipero Serra landed in Monterey and had mass in the same location. They were on an expedition to find Vizcaino’s landing place and establish the Presidio of Monterey. During the founding of Monterey, Spanish soldiers fired muskets, bells were rung.

It was on that date that the City of Monterey was also founded, leading to our 250 year sestercentennial in 2020. SEE A LIST OF FIRSTS - Why Monterey is known as the First City
New classes at the Monterey Sports Center

BY FITNESS MANAGER BILL ROTHSCHILD

The Monterey Sports Center is featuring several new classes as we welcome in 2020 and get ready for the next decade of fitness.

Among the new classes of the 120 classes offered each week include:

- Wednesday, 12:15-1:05 pm Zumba with Kim F. in Studio 2
- Wednesday, 3:30-4:15 pm Junior Spartan Circuit (ages 10-14 years) with Marcia D. in Studio 1
- Thursday, 1:30-2:30 pm Chair Yoga with Gina in Studio 2
- Thursday, 7:00-8:00 pm Jiu Jitsu FLO with Ari in Studio 2
- Friday, 5:45-6:30 am MSC Circuit with Terri in Function Training Area of Sports Center Concourse
- Friday, 1:15-2:00 pm Bone Builder with Kadria in Studio 2
- Friday, 1:30-2:15 pm Zumba Gold with Melania in Studio 1
- Saturday, 8:00-8:45 am Aqua Yoga Core with Kim Y. in our Small Pool

In addition to our new class offerings, we continue to provide public events and lectures on a variety of topics related to our Healthy Eating Active Living (HEAL) commitment including Ask a Trainer and Ask a Therapist Days in January, a lecture from Dr. Peter Gerbino on Sorting out Shoulder Pain on Saturday, January 18th and new class formats. Check out our January schedule online or at the Sports Center.

Finally, we have expanded our concourse functional fitness area to provide more space and opportunities to work out for High-intensity interval training, group training, and training with weights, kettlebells, dumbbells, and medicine balls all identified by the American College of Sports Medicine as top trends in fitness for 2020.
The Library's Winter Reading Program
BY LIBRARY MANAGER KIM SMITH

Cool weather and rainy days are perfect for reading with kids! The Monterey Public Library makes reading together even better with the Winter Reading Program. Between January 28th and March 9th, families with children fifth grade and younger can pick up a reading log at the Library or Bookmobile and track the time they spend reading. Six hours of reading earns a child a free prize book of their choice!

Children of all ages benefit from reading and being read to. Studies show that reading helps children develop social and emotional skills as well as supporting success in school. A daily habit of reading together (at bedtime or anytime) shows children that the adults in their lives value books and reading and enjoy spending time together. So, take advantage of the early evenings and cozy weather – snuggle up with a good book and read!

Need a suggestion for your family’s next favorite book? The Library’s friendly and knowledgeable staff is happy to help. The Winter Reading Program is sponsored by the Kiwanis Club of Monterey.

Two preschool programs now enrolling

Two different preschool options are open for enrollment. The new Presidio of Monterey Community Child Development Center has an infant/toddler program as well as a preschool program - opening in February 2020 to both military and non-military families.

The City of Monterey Preschool program for kids ages 3 - 5 also has openings, and a new web page is available at monterey.org/rec or directly here.

Click the flyers to enlarge.
The Parks Division staff enjoy participating in student community volunteer projects. High school students from Robert Louis Stevenson School (RLS) in Pebble Beach took advantage of the opportunity to help out recently along the beautiful Recreation Trail. Thanks for the help RLS students!
