Section 5 Retirement Health Savings Plan

This plan is not currently in effect. Once Employees’ agree to a mandatory contribution amount, it is the City’s intent to implement. The RHSP has the following components:

Eligibility: Employee must retire or separate from City service and have reached a minimum of age 50. Under certain circumstances the age requirement may be waived if the employee qualifies as disabled from work under the PERS retirement plan, the City’s Short-Term/Long-Term Disability Plan or under Workers’ Compensation.

1. An employee may make a one-time irrevocable election to have an ongoing pre-tax salary deduction of 1 – 20% (whole percentages) of the employee’s base rate of pay and,

2. An employee may also elect on an annual basis, in a year preceding retirement or separation, to make an irrevocable pre-tax deduction up to 100% (whole percentages) of his/her accrued vacation, holiday and CTO separation payoffs.

Contributions into the RHSP are made only by the employee; there are no employer contributions. The employee will pay all administrative fees. The employee will be allowed to make his/her irrevocable election within 30 days of hire as a full-time employee, and/or during the City’s annual open enrollment period.

If a participating employee dies without designating a beneficiary, the distribution of any assets contained in the employee’s account shall be distributed equally among City-wide participants in the plan.

This policy is in keeping with the California Public Employees’ Pension Reform Act (PEPRA). As of July 1, 2013, the City’s contract with PERS for the 2.7% @ 55 plan contains the following plan amendments allowed by the Public Employees’ Retirement Law (PERL):

The 2nd tier for these employees is the 2.0% @ 62 and contains the same plan amendments as the 2.7% @ 55 plan described above, except that PEPRA requires the 2.0% @ 62 retirement formula to be based on a 36-month average of annual pensionable compensation earned (rather than a 12-month average), and employees on the 2nd tier contribute 50% of the normal cost of the plan as established by CalPERS and are not required to participate in any cost-sharing of the Employers’ Contribution to CalPERS. Alternate Staffing for Engineering Classifications

**Definition:**

Alternate Staffing: When a superior classification is approved in the Department's Position Allocation list, the direct advancement of an employee in a subordinate related classification to the superior classification without a net gain in the number of personnel assigned to the Department.

In this case, the classifications which are eligible for Alternative Staffing are Associate Civil Engineer, Assistant Civil Engineer, Junior Civil Engineer, Field Engineer, Associate Engineering Surveyor, Assistant Engineering Surveyor, future professional engineer classifications and successor classifications.

**Procedure:**

Subject to the advance approval of the City Manager, or his/her designee, the Public Works Director may appoint an employee from a subordinate professional engineering classification to a superior professional engineering classification as defined above provided the following conditions are met:

1. The superior classification is authorized in the Department's budget and position allocation list.

2. After the employee is appointed to the superior classification there is not a net gain in the number of personnel assigned to the Department.

3. The employee must have completed his/her original probation as defined in Monterey City Code section 25-10.06.a.1.

4. The preponderance of the employee's current duties must be those of the superior classification and constitute a continuing and ongoing level of responsibilities.

5. The employee must meet the minimum qualifications of the superior classification and any requirements of applicable State and/or Federal law. Such determination shall be the responsibility of the Department Head and the Personnel Director.

6. The employee's performance must be evaluated against written performance standards developed by the Department Head and Personnel Department prior to advancement to the higher class. These standards must specify the duties to be performed, the quality of the performance and level of productivity.
7. There is a demonstrated need acknowledged by the City Manager or his/her
designee, that the higher level skills of the superior classification are
necessary to the City.

8. Subject to City Manager approval or that of his/her designee, employees may
be hired into an engineering position at any level at or below the Council
authorized classification depending upon experience of the candidate, the
best interest of the City in competing with the labor market and the type of
work to be performed.

9. Some positions within the professional engineering classification may remain
at a lower level than authorized. This may occur as a result of either:

9.1. the inability of the employee to learn and perform the higher level
duties or the needs of the City, or

9.2. the City’s engineering workload, which may not require the skills of the
more advanced levels.

Employees advanced under this section shall serve a probationary period as defined
in Monterey City Code section 25-10.02. The City retains its options for corrective
action, including but not limited to, training, reassignment or other actions as
authorized under the City’s Personnel Rules and Regulations.

Criteria for Progression:

The progression of an employee through the various professional engineering
classifications identified under "definition" will be in accordance with the standards
established by the Public Works Director in conjunction with the Personnel Director.
These are as follows:

1. Obtaining registration from the State of California as a Professional Engineer
is required before an Assistant Engineer may be considered for advancement
to an Associate Engineer.

2. Obtaining certification from the State of California as an Engineer in Training
(EIT) is required before a Junior Engineer may be considered for
advancement to Assistant Engineer.

3. The Public Works Director may have specific technical requirements that
must be consistently met by Assistant and Junior Engineers in order to be
considered for advancement. These technical requirement expectations will
be clearly communicated to Assistant and Junior Engineers by the Public
Works Director.

4. In addition to the above licensure, experience and educational requirements,
progression to a higher level will also be predicated upon acceptable
performance in the following areas: interpersonal skills, communication skills
(oral and written), integrity (honesty, forthrightness), capacity (demonstrated-
ability and interest in continuing to learn), understanding (compassion, customer service ethic, teamwork). The Public Works Director will review the factors with the employee during annual evaluations and at the time the employee is otherwise eligible for progression through Alternate Staffing:

See Exhibit 1 for Minimum Standard for Employee Eligibility for Progression Through Engineering Classifications. These Standards must be met by an employee at the time progression through Alternate Staffing is considered under the above rules.
